

Event information

Meeting location

Hotel NH Collection München Bavaria

Arnulfstraße 2
80335 München

+49 (0) 30 2238 0233
reservierungen@nh-hotels.com

Single room: 157,- € incl. breakfast

We have prepared an offer of available rooms for you. Using the code "Interventions-Akademie 2025", reservation-number: 132509502, you may book these rooms, depending on availability, until 06 November 2025.

Notice: Please remember to book a hotel in time, if necessary, as availability may be limited due to fairs.

The DGK-Academy does not cover hotel costs and bookings!

Information on the additional qualification

Interventional Cardiology: curricula.dgk.org/ik

*CME-points

For this event 13 CME points will be applied for from the Bavarian State Medical Association [Bayerischen Landesärztekammer] as part of continuing medical education. No services and/or products are advertised.

Any conflicts of interest must be disclosed by the speaker before the lecture.

Terms of Participation

Fees

690,- €
665,- € for DGK/EAPCI-members

In the interest of an interactive learning process, the number of participants is limited to a maximum of 16.

Registration

1. Register online at: herzmedizin.de/akademiekurse
2. You should receive binding confirmation of registration on the next business day
3. We will send you the invoice by e-mail approx. 4 weeks prior the course.

Your registration is personal, binding and requires a course fee. Should the organizer cancel the event, the course fee will be fully refunded. Further claims are not established. In case of cancelation by the participant—including for which the participant is not responsible—(in writing!) up to 14 days before the event, a processing fee of €35.00 will be retained/charged. **After this period, the course fee cannot be refunded.** The organizer reserves the right to make changes to the program.

Data protection: The participant consents to the storage of his/her registration data by DGK for the fulfillment of contractual obligations. Planning your booked event requires your personal data. We require your data for the purpose of contract performance. Your personal data will only be used in compliance with applicable data protection laws and not transferred to third parties for other purposes.

With kind support**

AGIK TRAINING FÖRDERER

**Each Training Partner 2025 supports the organization of the AGIK Interventions-Academy (incl. 24 Single-Events) event with an amount of 30.000,- €. This amount will be used to cover all costs incurred for marketing, catering, technical services, training administration, internal costs, speakers' fees and overheads at a calculated utilization rate of 75 %. The supporters have no influence on the choice of topics, speakers, content and presentation.

 Kurs zum Curriculum

A concept of

in cooperation with

Dear Colleagues,
Dear AGIK- and EAPCI community,

contemporary interventional PCI techniques have advanced significantly over time and are used to intervene the most difficult lesions in the treatment of coronary artery disease. There are, however, some challenging lesions that require careful clinical evaluation and pre procedural planning. These complex lesions include bifurcation lesions, calcified lesions, unprotected left main coronary artery lesions, saphenous vein graft lesions, aorto-ostial lesions or protected PCI. How to address these lesions with Complex and High-Risk Interventional Procedures (CHIP) and a S.M.A.R.T-PCI approach will be discussed based on “real life” recorded cases and current evidence in this two-day interactive course. We are excited to announce this new CHIP course concept in collaboration between AGIK and PCRnextGen cause this course isn't just about learning: It's an opportunity to get in contact and network with colleagues from all over Europe at a deeper level.

This course offers:

- A unique networking experience with 3 international trainers (#AGIKmeetsEAPCI)
- In-depth case based discussions of CHIP-PCI
- Insightful recorded live-in-a-box cases and live simulation cases at a Virtual-Reality Simulator
- Dynamic learning processes focussing on case-based learning
- An exclusive setting, limited to just 16 participants, ensuring a focused and interactive environment.

We look forward to welcoming you to this course.

Prof. Dr. Albrecht Elsässer
Prof. Dr. Alexander Ghanem
Prof. Dr. Tanja Rudolph
Overall Scientific Administration

Learning Objectives/ Topics

- From A(ccess) to Z(ero contrast PCI)
- Intracoronary Imaging (OCT, IVUS)
- Intracoronary physiology (FFR, IFR, RFR, QFR)
- Bifurcation lesions
- Calcified lesions
- Aorto-ostial lesions
- Venous graft PCI
- Protected PCI (use of MCS)
- Complication management with how-to “tips & tricks”
- Pharmacotherapy Antiplatelet and secondary prevention

Trainer

Prof. Dr. Alaide Chieffo, Mailand
EAPCI President

Prof. Dr. Thomas Johnson, Bristol
Board Member EAPCI

Erik Rafflenbeul, Hamburg
AGIK

Friday, 21.11.2025

- 13:00 – 13:10

Welcome
- 13:10 – 14:00

Role of intracoronary imaging in complex PCI
- 14:00 – 15:00

Bifurcation PCI PART 1: Strategies, Planning + Provisional Stenting
- 15:00 – 15:20

Coffee break
- 15:20 – 16:45

Bifurcation PCI PART 2: 2-Stent Strategies
- 16:45 – 17:00

Coffee break
- 17:00 – 18:30

CaseBasedLearning with Simulation Training at a Virtual-Reality Simulator
- 18:30

End of the first day
- 19:00

Dinner and get together

Saturday, 22.11.2025

- 08:30 – 10:00

Calci ed Lesions: Tools and Techniques
- 10:00 – 10:15

Coffee break
- 10:15 – 11:00

Protected PCI: When? How?
- 11:00 – 12:00

Basics CTO
- 12:00 – 13:00

Lunch break
- 13:00 – 14:30

Cathlab Nightmares + Management of Complications
- 14:30 – 15:30

Case Examples
- 15:30 – 15:45

Evaluation and Farewell

Notice

This course expects physical attendance. Please note that admission to the event is subject to current local regulations and house rules of the venue. If physical attendance is not possible/ reasonable for this course, it may be held online.
